

Chimpanzee IL-13 ELISA Matched Antibody Pairs

Catalog No: CK1039
Size: 10 plate format

Coating antibodies (2 vials)

Product: Monoclonal antibody to chimpanzee interleukin 13 (IL-13)
Isotype: Mouse IgG1
Production: *In vitro* using serum free medium
Purification: Ion exchange chromatography
Contents: Each vial contains sufficient material for coating of five 96-well ELISA plates
Buffer: Prior to lyophilization: 0.25 ml PBS + 125 mM trehalose
Application: Coating antibody in an ELISA system
Reconstitution: Dissolve the contents of one vial by injection of 0.25 ml distilled water into the vial and dilute 100 times in PBS. The total amount of one vial is sufficient for five 96-well ELISA plates (480 determinations; 50 µl/well).

Detector antibodies (2 vials)

Product: Biotinylated polyclonal antibody to chimpanzee interleukin 13 (IL-13)
Isotype: Rabbit IgG
Purification: Ammonium sulphate precipitation, protein A- and ligand-affinity chromatography
Labeling: With Biotin-7-NHS (N-hydroxysuccinimide)
Contents: Each vial contains sufficient material for five 96-well ELISA plates
Buffer: Prior to lyophilization: 0.5 ml PBS + 1% BSA + 125 mM trehalose
Application: Detection antibody in an ELISA system
Reconstitution: Dissolve the contents of one vial by injection of 0.5 ml distilled water into the vial and dilute 100 times in PBS + 0.5% BSA + 0.05% Tween-20. The total amount of one vial is sufficient for five 96-well ELISA plates (480 determinations; 100 µl/well).

Standard (5 vials)

Product: Recombinant interleukin 13 (IL-13)
Application: Cytokine standard in an ELISA system
Reconstitution: Dissolve the contents of one vial by injection of 0.5 ml distilled water into the vial and use immediately.

General

Specificity: Validated for detecting natural chimpanzee IL-13
Sterility: Membrane filtered (0.2 µm)
Stability: The lyophilized products are stable for more than one year at 4°C. After reconstitution, the antibodies are stable for several months at 4°C (if kept sterile) or for minimal one year at -20°C. The reconstituted standard preparation should be used immediately.

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
