

## Rabbit IgG Biotin

|                                 |   |                  |                 |
|---------------------------------|---|------------------|-----------------|
| <b>Catalog No.</b>              | CSI20229A<br>CSI20229B  | <b>Quantity:</b> | 1.0 mg<br>10 mg |
| <b>Description:</b>             | Rabbit IgG purified from normal serum by immobilized Protein A then biotin labeled.         |                  |                 |
| <b>Concentration:</b>           | 10 mg/ml  |                  |                 |
| <b>Purity:</b>                  | >95% by SDS-PAGE analysis and preservative free   |                  |                 |
| <b>Specificity:</b>             | This antibody has been selected as an isotype control as it has no known specificity.       |                  |                 |
| <b>Host:</b>                    | Rabbit  |                  |                 |
| <b>Source:</b>                  | Rabbit plasma   |                  |                 |
| <b>Clone:</b>                   | Polyclonal  |                  |                 |
| <b>Conjugate:</b>               | Biotin  |                  |                 |
| <b>Formulation:</b>             | Frozen liquid in 0.015 M Sodium Phosphate Buffer + 0.15 M NaCl, pH 7.4                      |                  |                 |
| <b>Applications:</b>            | ELISA<br>Western Blot   |                  |                 |
| <b>Storage &amp; Stability:</b> | Store at -80°C. Stable for 5 years from delivery. <b>Avoid repeated freeze-thaw cycles.</b> |                  |                 |
